

Button-Covered Box

Ages 5 and Up

This is a great project for a playgroup activity or anytime you need to come up with a quick gift. I like to keep these shallow gift boxes handy for last-minute crafts. If you order them by the case at papermart.com each box costs less than a quarter!

Materials:

Lidded Gift Box
White Glue and Paint Brush
Mixed Buttons

Directions:

1. Remove the lid and spread glue on one side using the brush.
2. Cover that side with buttons then do the same for the other three sides.
3. Place the lid on a paper-covered work surface and spread glue on the top of the lid.
4. Cover with buttons and allow to dry.
