

Egg Decorating II

Ages 5 and Up

Glitter Glue and Glitter:

You will need glitter glue and glitter. Create a pattern or design all over your egg then sprinkle with glitter. I recommend decorating half of the egg, allowing the glue to dry, then decorating the rest.

Thumbprint Characters:

Get out your books by Ed Emberley and decorate your eggs with your favorite springtime characters. You may use an ink pad, markers, or paint to make your fingerprints. Be careful not to smudge your fingerprints!

Paint Pen and Glitter Glue:

You will need a metallic paint pen and some glitter glue. Draw a design of your choice all over your egg. Punctuate your design with small dots of glitter glue. Be careful not to smudge your design!

Egg Stands:

Make your own egg stands by spray painting extra large washers from the hardware store in pretty spring colors.
